**TO WHOME IT MAY CONCERN**

Asia Pacific Warehousing and Distribution Services Pty Ltd (APWDS) were referred to us as a well operated / disciplined warehouse operator. With this recommendation, we decided to store our daily manufactured products for holding purpose early November 2010.

The task for APWDS was to unload trucks, book stock into inventory, apply SSCC labels and provide daily stock reports and at the same time manage our own pallets and also, unpack containers.

The personalized service we received is of very high standards and in particular the follow up's. The picking was 100% accurate and there were no damages to our products (given the nature of our highly sensitive packaging)

Receiving and Dispatch was well co-coordinated and we never had detention / delays at APWDS.

I can without any hesitation recommend APWDS to any Manufacturer or Importer requiring Warehousing needs.

Yours truly,  
**Robert Angele**
